FIBER PLANTS—I

HARVESTING HEMP

After being cut, hemp is left on the ground until retted. It is used in the making of twines and some carpet warp

C&F 2192

COIR COCONUT

C&F 2567

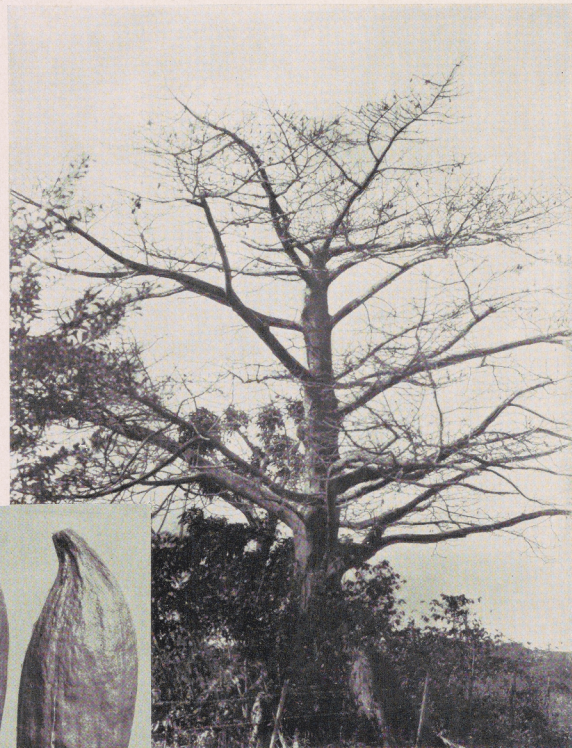

Fiber from these nuts is used in making door mats

JUTE PLANTS

C&F 409

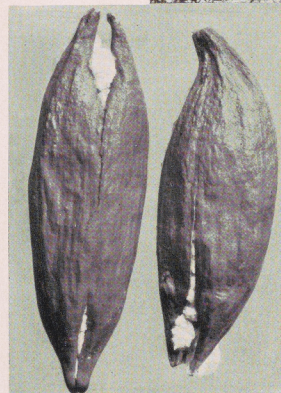

Jute fiber is more extensively used than any other vegetable fiber except cotton. It is the cheapest and weakest fiber in use

C&F 2620

KAPOK TREE AND RIPE PODS

Kapok down is used in stuffing pillows, mattresses, life preservers, and for insulation in refrigerators

C&F 1975

PODS

Prepared by Extension Service, in cooperation with the Division of Cotton and Other Fiber Crops and Diseases, Bureau of Plant Industry, United States Department of Agriculture, Washington, D. C.

Group No. 14.—Miscellaneous Fiber Plants (Chart No. 14.2). Group of three charts. Price 10 cents. Revised 1940.
